

**Lucy Rose Announces New Album Details + Shares First Track.  
+ Spring UK/Europe Tour Announced**

**Watch The Video To *Conversation* [HERE](#)**

***No Words Left* LP Released 22<sup>nd</sup> March 2019**

**Lucy Rose releases her fourth album *No Words Left* on 22<sup>nd</sup> March 2019. To introduce the record, the album's opening track *Conversation* is streaming now:**

**<https://LucyRose.lnk.to/Conversation>**

**To coincide with the album's release Lucy will head out on a headline tour of the UK and Europe in April.**

*No Words Left* was recorded in Brighton, produced by Tim Bidwell and mixed by Cenzo Townsend.

We last heard from Lucy Rose with the release of 2017's *Something's Changing*, a record that heralded a new outlook for the musician who was re-evaluating what she wanted to do and how she wanted to do it.

If *Something's Changing* was an artist rediscovering their voice, *No Words Left* is Lucy using that voice to devastatingly frank effect. Lyrically and musically fearless, this record is a beautifully intense, but often unsettling listen. It's a body of work, a fine modern example of the enduring strength of the album format.

Describing the record and its process, Lucy explains:

*"Releasing this record feels entirely different to every other record I've released. But to try and sum up my emotions is virtually impossible.*

*"I don't believe this the best album I've ever made because I don't believe in making comparisons when it comes to music. But it's different.*

*"In every way I've approached writing, recording and now releasing music, it's been different. I've lost all consciousness in caring and it's been liberating. It is what it is. It's a feeling, it's a song, it's*

*a sound, it's a part of me which I can't decipher whether it's good or bad, but it's sincere. I recently learnt that the word sincere is derived from the Latin sine = without, cera = wax due to dishonest sculptors in Rome or Greece covering flaws in their work with wax to deceive the viewer. So, a sculpture "without wax" would mean honesty in its perfection.*

*"That really struck a chord with me as sincerity really is the key to this record. It's my truth. Sincerity is the truth of a person, not just the good but the bad: the flaws, the realness, which can never be 'perfect'. This album reflects the reality of my life, the toughness life throws at you, and for a period of time it did become too much for me to handle alone.*

*"I could try to explain more about each song but in all honesty, I can't particularly remember writing them, the feeling being too strong and too big for me to comprehend. But songs came out and through writing them and working through my thoughts I saw the truth lying in front of me and a way to move forward.*

*"I always hope my music would be a comfort to someone, however this record may not be the easiest listen. But it's in its discomfort I believe a different form of comfort can be found. I'm certain of it. "*
